

TRAFFIC CONTROL

Course Outline

DURATION: 4 hours (approximately)

The Construction Regulation (O. Reg. 213/91) under the Occupational Health and Safety Act specifies that a worker required to direct traffic “shall be given adequate written and oral instructions, in a language that he or she understands, with respect to directing vehicle traffic, and those instructions shall include a description of the signals that are to be used” (Section 69 (4) (d)).

Upon the completion of this course you will be certified to meet the legal requirements under Section 69 of the Regulation.

Course Outline:

- Ontario Health and Safety Act and regulations relating to traffic control.
- Roles and responsibilities.
- Protecting and motoring with traffic flow regulation.
- Speed Control in Work Zones, including pilot vehicles.
